CONTRACT MANUFACTURING SERVICES

YOUR COMPLETE SOURCE FOR QUALITY MANUFACTURING.

Our Quality Management system ensures quality principles and practices are embedded into all manufacturing processes. From conceptual design through final product delivery, Ohio Steel Industries employees are committed to delivering a superior quality product to our customers. We foster an environment that is focused and committed to continuous improvement and continuous learning at all levels.

Ohio Steel Industries incorporates statistical process control methods using state-of-the-art measuring equipment to minimize and control the variation in our manufacturing processes. This allows us to confirm our goal of meeting and or exceeding our customer requirements.

Ohio Steel Industries specializes in manufacturing parts and components for a wide range of industrial applications and manufacturers. From finished products to parts, various sized storage racks & structural weldments. Ohio Steel Industries provides innovative solutions to a wide variety of segments within the industrial manufacturing sector. Our "First Time Quality" principle, quick turnaround, and on-time delivery record, make us a preferred provider. Manufacturers nationwide rely on Ohio Steel Industries' reputation for Service, Quality, and Delivery to ensure their product is of the highest quality and conforms to all required specifications.

Ohio Steel Industries realizes how important your project is to you. We are dedicated to the success and quality of your product through every step of the process.

We have exceeded client expectations with our products and services.

OUR STORY

Ohio Steel Industries, Inc., founded in 1958, began business in a 25,000 square feet facility in Columbus, Ohio, providing steel products to the central ohio area.

Today our company operates in multiple facilities of more than 300,000 square feet providing contract manufacturing, manufactured lawn and garden product, plastic extrusion, and structural steel fabrication services throughout the world.

255,000 SQ. FT. / 45 ACRE CONTRACT MANUFACTURING FACILITY
